Lavabo “Goccia”

Designer: Studio PTA

“GOCCIA” è il risultato di una modellazione tridimensionale che parte dalla forma geometrica di una goccia. Il processo di lavorazione del materiale ha dato come risultato un volume dalle forme sinuose e dal carattere molto deciso, capace di diventare un elemento attrattivo all'interno della stanza da bagno.

Lavabo “Wave”

Designer: Studio PTA

“WAVE” è una linea bagno che comprende lavabo, rivestimento e piatto doccia. Con questa linea si perde il canonico isolamento di ogni complemento che compone la linea, fondendoli in un “continuum” materico. In particolare il lavabo, completamente integrato nel rivestimento, diventa un elemento estruso dalla parete.

“WAVE” is a bathroom line that includes sink, covering and shower tray. With this line the canonical isolation of each complement that makes up the line is lost, merging them into a material "continuum". In particular, the sink, completely integrated into the covering, becomes an element extruded from the wall.
